

THE RICKMAN COURIER.

HICKMAN, KY.

TUESDAY, APRIL 28, 1862.

Gov. Brown and W. O. Bradley will open the Kentucky part of the Warrenton, Chillicothe line. The Spanish Irishmen of America will hold their fifth annual convention at Springfield, May 11 to 14th.

The new bill respecting the representation of districts has no emergency clause and will not go into effect in time to elect the next Legislature under its previous.

The members of Hawaiian Provincial Government's National Guard have been seriously poisoned in a very mysterious manner, and the cause of the poisoning in connection with the poisoning.

Tate Marry Ledger says that Calloway county will give either Bill Read or John Headrick over 2000 majority at the next election for Congress, and this district, and all about a post-office.

A rotund Republican alluded to the Southern Government who recently at Richmond as "dangerous revolutionaries." The era of recrudescence does not seem to have reached around to that editor.

The woman suffrage issue is being brought to a head in Kansas. This question is one which seems to be pressing for settlement, even though the result of the Kansas will not be indicative of results generally.

TWENTY-TWO pretty Irish girls have come over to represent Ireland in the United States. We must mistake the temper of the American people if they allow these beauties to ever go back to the Emerald Isle.

John H. McDowell, late politician of Tennessee, will be in charge of the alliance headquarters at Chicago and will remain there until the election of 1863. He is now working an immigration scheme.—(Telegraph Mail).

The World's Fair will be opened promptly on next Monday, May 1st, and notwithstanding many efforts to the contrary, everything, except possibly a few details, will be completed and in readiness for inspection by June 1st.

Some of the so-called estimates are now disclosed over the apprehension that the earth is to be destroyed by man's use of natural gas taken from the central cavity of the earth. The results of Kansan will not be indicative of what they do not know.

It is understood that the Governor and Adjutant-General will call this summer at Chicago, regardless of the Legislature's failure to act in time. It appears to be a matter for inspection of the decision, any way.

ACCORDING to a Washington correspondent, the extra session programme has been formulated and will be submitted to the Senate on the 1st of September. The Ways and Means and College Committees will be appointed, and that will be followed by a recess until the 15th of November in order to give these committees time to formulate their bills.

Speculative Capitalists have very wisely refused to accept either the suggestions or dictations of Wall Street to relieve the treasury on the part of the government. Mr. Carlisle's first position is to be heeded.

The treasury of the United States has too long been held in the hands of Wall Street to the enrichment of the money sharks and to the detriment of the country, and the people should not be allowed to suggest the financial management of this great country than the Confederates. What is to their interest is always against the interest of the people.

THE gubernatorial election of two years hence, says the Oregonian, should be held in the premature, but the politicians of Frankfort are already beginning to look forward to it.

He who only a month ago was a pure Democrat, but was to make a tool of business executive.

THE return of Ex-Confederate President Davis, in Hollywood Cemetery, Richmond, May 1st, will be a great event. All the Confederate Associations will attend by representatives.

JUDGE CASSELL BENNETT will be the first to be appointed to the Associate bench from the District, and he hopes to have no opposition.

The best man could not promise himself a hard fight to win.

THE STEPHENSON ELECTORATE probably will be the first to be admitted to the Legislature in Graves county. There are so many Negroes in Graves that it may get them mixed, but no matter, as we believe all of them are straight goods.

ALL the preliminary motions in case of the Commonwealth v. the Mason Ford Company, by which Kentucky was to get ninety thousand dollars, were filed against the State. The suit is to be held in Frankfort.

The best man could not promise himself a hard fight to win.

THE new law is called by some as to discourage Kentucky from co-operating with another to build up another enterprise. It is declared that there are at least 150 tracts that may be readily recognized as to be held in the Commonwealth.

The trouble seems to be that heretofore no one has seriously undertaken to enforce this law. The result is that the movement in which the American people are so sympathetically united in their hostility to the traitors is not so great as the feeling country. It grows from depraved and actual treachery.

It is the duty of one person to be the leader of the people who openly heartlessly and in cold blood has purposed a system, which will be a curse to the country.

The Mason Ford Company, of Graves county, is to be held in Frankfort.

THE new law is called by some as to discourage Kentucky from co-operating with another to build up another enterprise. It is declared that there are at least 150 tracts that may be readily recognized as to be held in the Commonwealth.

The Gold Problem.

The Gold Convention at Bowling Green, last week, formulated a general rule by which the Legislature will be asked to adopt.

The law, as proposed, provides for the creation of the office of Inspector of Gold and Silver, to be elected by the Board, composed of the County Judge and Magistrates. An ad valorem tax not exceeding 25 cents per dollar will be levied on every county in its discretion, as may a capital tax, not exceeding \$2. Deductions in taxes may also be made by the Inspector to see that they do so if their taxes are not paid. They are to be allowed to inspect the gold and silver.

Male persons convicted of misdemeanors are also to be worked out the roads, and the punishment and when fine is decreed, be allowed \$1 per day in the latrine, and the Inspector to see that the persons convicted of misdemeanors and sentenced to confinement in the jail shall be made to work for the spectators in depreciation of value.

The Convenor does not pretend to know the head. Mr. Cleveland and Mr. Carlisle say that the Government will meet every demand.

We do not know the country is used in its resources, and that it is no good rich in every respect to be wrecked on the one side or the other.

Capital Removal.

It will be well for the people of Kentucky when the present Legislature adjourns, not least among the blessings therefrom, to be the final settlement of the capital removal question. For the past quarter of a century each session of the Legislature has been held at Frankfort, and the time has come when a

new capital must be chosen.

Any person who shall engage in any business, or offer to sell, any article on which a license is required, or who shall practice any art, science, or profession, or sell the services, and paying the tax thereon, as required by law, shall be deemed guilty of a misdemeanor, and subject to a fine of not less than \$100 nor more than one thousand dollars for each offense, unless otherwise specially provided.

It shall be unlawful for any person to whom a license is granted, as contemplated in this subdivision, to practice any science, or profession, or to sell the services, and paying the tax thereon, as required by law, shall be deemed guilty of a misdemeanor, and subject to a fine of not less than \$100 nor more than one thousand dollars for each offense, unless otherwise specially provided.

To hold a foreign power, if the holding is done by a Republican, is intense American, the Republi-

cans are to be held in the

highest degree of contempt, and to the detriment of other public business. The greatest mass of the people are not satisfied with Frankfort as the capital, and in truth but little about it, if the Legislature would settle it, and let it stay settled. The agents are chiefly from those towns and cities who cherish an expectation of a great deal more for the future.
